Dear Mr. Miller,

My students are at the greatest risk of being involved in an alcohol related fatality during April, May and June – prom to graduation. The Save-a-Life-Tour program provided a timely, contemporary, attention-grabbing presentation that riveted my students like no other presentation the school has sponsored. The combination of personal testimonies and high tech machinery brought a fresh approach to a message they have almost become numb too over the past years – don't drink and drive.

The student and staff feedback was overwhelmingly positive. Our classrooms and hallways were buzzing for days with student reaction to the two presenters- John & Patrick. They connected with my students and openly shared their pain.

I look forward to bringing this program into my school on a regular basis. Thank you for your assistance.

Respectfully,

Guyla Maples
Principal
